Create a food drive to benefit the Community Center of Northern Westchester

Organize a food drive in your neighborhood. Contact your neighbors and tell them that you are collecting food for the Community Center of Northern Westchester. If they wish to participate, give them a flyer containing the items the Center needs the most (below) and specific information about when you will pick up their donations.

or:

Collect food in front of a local supermarket. In this case, you greet people as they enter the supermarket, offer them a list of the food the Center needs the most, and ask them to shop for some of the foods on the list and donate them as they leave the supermarket.

Once the food is collected, call us at 914-232-6572, and arrange a convenient time to bring the food to the Center. When you deliver the food, you are also welcome to weigh it in and to help stock the pantry shelves.
